

Aurore is a prominent manufacturer of active pharmaceutical ingredients and pharmaceutical intermediates dedicated to practicing sustainable development. Our commitment is to create value for all stakeholders, including shareholders, employees, customers, partners, suppliers, local communities, and society at large. We strive to offer sustainable products and services that positively impact the environment and society.

To achieve this goal, we are proactively working as;

- 🌱 **Commitment to Environmental Responsibility:** Conduct all our operations in an environmentally responsible manner by continuously surpassing the prescribed statutory environment compliances and applicable standards.
- 🌱 **Increasing Renewable Energy Usage:** Make continuous effort to increase renewable energy and Biofuels to reduce our greenhouse gases (GHG) footprint.
- 🌱 **Enhancing Water Conservation:** Make continuous efforts to reduce water intensity and freshwater usage by increasing usage of recycled water in our operations.
- 🌱 **Air Pollution:** Committed to minimize our impact on the environment, especially air pollution, by promoting cleaner practices and reducing emissions across our businesses.
- 🌱 **Advancing Energy Efficiency and Pollution Reduction:** Adopt most energy efficient and less pollution technologies in manufacturing process, improve the energy efficiency of equipments, recover waste heat from the process to reduce energy intensity and reduce the waste from the process.
- 🌱 **Minimize and control of API Discharge:** Utilize technological advancements to minimize API discharge concentrations, ensuring compliance with environmental standards and safeguarding ecological health.
- 🌱 **Biodiversity:** Committed to preserving biodiversity by minimizing our influence on ecosystems and actively supporting conservation activities, sustainable sourcing practices, and habitat protection to maintain the delicate balance of life on our world.
- 🌱 **Commitment to Health and Safety Excellence:** Ensure no harm anywhere to anyone in our entire operations as part of our commitment towards health and safety of all the people involved by providing proper working conditions, equipment, information, and training.
- 🌱 **Customer Health and Safety:** Giving top priority to the customers' health and safety and providing safe and effective products through transparency and compliance.
- 🌱 **Commitment to Continuous Quality Improvement:** Continuously strive to improve the quality of products, processes, and services.
- 🌱 **End-of-life Products & Environmental impacts from use of products:** Committed to minimizing the environmental impacts by promoting responsible disposal practices, encourage recycling and reducing packaging waste, and collaborate with waste management systems to ensure safe handling of expired or end-of-life products and packaging materials.
- 🌱 **Fostering a Culture of Sustainability:** Transferring its culture of sustainability to the entire value chain: customers, partners, suppliers, and other stakeholders.
- 🌱 **Promotion of Sustainable Consumption:** Prioritizes the promotion of sustainable consumption, encouraging responsible resource use and minimizing environmental impact to foster a healthier planet for future generations.
- 🌱 **Sustainable Procurement:** Minimize the environmental impact during the procurement decisions and encourage the suppliers to provide eco-friendly products and services
